

PACKAGING THAT PERSUADES

Wood Works

Dufeck specializes in wood packaging solutions that work for you.

A Dazzling Display ▶

Our customer wanted these dazzling display bottles to take the spotlight but they needed protection, too. Our solution: this customized gift packaging - a dowel crate - that lets the product have full visibility yet provides protection on the shelf.

One Box - Three Ways ▲

We know one size does not fit all, so we designed this "wine" box to open three different ways. Who says it has to hold wine? The box can be designed for virtually any product, in any size you need.

◀ Make an Impression

When you want to make a statement, consider this ultimate gift box. Our client wanted a box that would combine wine with other gourmet items. Our solution: this clever box designed with dividers and a lift-out tray.

"Whether you need fifty or 5,000 or more, we can provide distinctive wood packaging that adds real value to your product. With over 100 years of box-making experience, we can help you create a presentation box that displays your product at its best. As a domestic manufacturer, we're there for you, offering custom orders, small quantities, rapid turnaround and private labeling. We're very proud of the success stories shown here. Call us soon and ask about a unique packaging solution for your product."

The Customer service team

Small firm with big ideas? Big firm with small run needs? Decide on Dufeck..
